

HECTRONT

Billing, BOQ Preparation and interior
Fit-Out.Civil & MEP Projects

About us

Hectront is the Principal holding firm for a diversified portfolio of business in Billing, BOQ preparation + Execution & Project Management. We have presence in Pan India

Existing Building Plan & Retrofitting

Old heritage building needs special care to be in a position to preserve the custom, culture and dignity of the lively hood. We are more than happy to do such projects by creating 2D/3D CAD Plans Detail Building Health Report for necessary retrofitting of structure.

BOQ (Bill of quantities)

Preparation of BOQ (Bill of quantities) includes all project items, descriptions, preambles and pricing of items.

Contract management, M.O.M (method of measurements).

Selected Materials specifications and datasheet to implement in BOQ and specifications.

Corporate Work

Corporate design refers to the designing of officers work rooms, boardrooms and other spaces inside corporations. We as designers specialize in designing commercial interiors and usually work with corporate clients to create professionally yet tasteful environment.

Residential Work

Residential interior design is the art of creating aesthetic and functional living space. Designer work with architects to ensure that physical features allow for the appropriate division of private versus public space and can also aesthetically divide or unify rooms through colors, textures and patterns.
